

Upper Beeding Primary School

Early Years Foundation Stage Policy

May 2021

Within this document, the term Early Years Foundation Stage is used to describe children who are in our Reception classes.

Aims

At Upper Beeding Primary School, we aim to provide the highest quality care and education for all our children, thereby giving them a strong foundation for their future learning. We create a safe and happy environment with motivating and enjoyable learning experiences that enable children to become confident and independent. We value the individual child and work alongside parents and others to meet their needs and help every child to reach their full potential.

As outlined in the EYFS, 'Every child deserves the best possible start in life and the support that enables them to fulfil their potential. Children develop quickly in the early years and a child's experiences between birth and age five have a major impact on their future life chances.'

The following documents should be read in conjunction with this policy: Admissions Policy, Health and Safety Policy, Teaching and Learning Policy and Good Behaviour Policy.

We adhere to the Statutory Framework of the EYFS and the four guiding principles that shape practice within Early Years settings.

Every child is a **unique child**, who is constantly learning and can be resilient, capable, confident and self-assured

- Children learn to be strong and independent through **positive relationships**
- Children learn and develop well in **enabling environments** in which their experiences respond to their individual needs and there is a strong partnership between practitioners and parents and/or carers
- **Children develop and learn in different ways and at different rates**

Principles into Practice

As part of our practice we:

- Provide a balanced curriculum, based on the EYFS, across the seven areas of learning, using play as the vehicle for learning
- Promote equality of opportunity and anti-discriminatory practice. We provide early intervention for those children who require additional support

- Work in partnership with parents and within the wider context
- Plan challenging learning experiences, based on the individual child, informed by observation and assessment
- Provide opportunities for children to engage in activities that are adult-initiated and child-initiated, supported by the adult
- Have a key person approach to develop close relationships with individual children
- Provide a secure and safe learning environment indoors and out

Foundation Stage Curriculum

We plan an exciting and challenging curriculum based on our observation of children's needs, interests and stages of development across the seven areas of learning to enable the children to achieve and exceed the early learning goals.

All the seven areas of learning and development are important and inter-connected.

Three areas are particularly crucial for igniting children's curiosity and enthusiasm for learning and for building their capacity to learn, form relationships and thrive.

These three areas are the **prime** areas:

Communication and Language

Physical Development

Personal, Social and Emotional Development

Children are also supported through the four **specific** areas through which the three prime areas are strengthened and applied.

The **specific** areas are:

Literacy

Mathematics

Understanding the World

Expressive Arts and Design

Children are provided with a range of rich, meaningful, first-hand experiences in which children explore, think creatively and are active. We aim to develop and foster positive attitudes towards learning, confidence, communication and physical development.

Children's learning and development are facilitated and nurtured by focusing on **The Characteristics of Effective Learning** which describe how children learn.

As a team, we write long term and medium term plans based on a series of topics, linking to quality texts and children's interests, each of which offers experiences in all seven areas. Please see our plans for more details. These plans then inform our short-term weekly planning, alongside our observations, which remains flexible for unplanned circumstances or children's responses.

Children have whole class, small group and individual learning times which increase as they progress through the EYFS with times for a daily phonics session using 'Letters and Sounds', teaching aspects of Mathematics and Literacy, including shared reading and writing.

The curriculum is delivered using a play-based approach as outlined by the EYFS.

'Each area of learning and development must be implemented through planned, purposeful play and through a mix of adult-led and child-initiated activities'

We plan a balance between children having time and space to engage in their own child-initiated activities and those that are planned by the adults. During children's play, early years practitioners interact to stretch and challenge children further.

In planning and guiding children's activities, we reflect as practitioners on the different ways that children learn and reflect these in our practice.

We create a stimulating environment to encourage children to free-flow between inside and out.

Observation and Assessment

As part of our daily practice, we observe and assess children's development and learning to inform our future plans. The process informs staff of children's interests, strengths and areas to be developed. We record our observations in a variety of ways. Significant observations of children's achievements are collated on line and in classroom journals. These observations are shared with children and parents at regular intervals. The observations inform keyworkers of the next steps in the child's development. The next steps are shared termly and updated and reviewed as needed.

Summative assessment is recorded on the school tracking system, INSIGHT, on a regular basis. This enables staff to regularly track progress and provide appropriate intervention to ensure high standards.

Within the final term of Reception, we provide the parents with a report based on their child's development against each of the Early Learning Goals and the characteristics of their learning. The parents are then given the opportunity to discuss these judgements with the Reception teacher in preparation for Year 1.

Safety

Children's safety and welfare is paramount. We create a safe and secure environment and provide a curriculum which teaches children how to be safe, make choices and assess risks. We have stringent policies, procedures and documents in place to ensure children's safety.

We promote the good health of the children in our care in numerous ways, including the provision of nutritious food, following set procedures when children become ill or have an accident.

Please see our separate policies and procedures on Health and Safety, Child Protection and First Aid.

Inclusion

We value all our children as individuals at Upper Beeding Primary School, irrespective of their ethnicity, culture, religion, home language, background, ability or gender. We plan a curriculum that meets the needs of the individual child and support them at their own pace so that most of our children achieve and even exceed the Early Learning Goals. We strongly believe that early identification of children with additional needs is crucial in enabling us to give the child the support that they need and, in doing so, work closely with parents and outside agencies.

Parents as Partners and the Wider Context

We strive to create and maintain partnership with parents and carers as we recognise that together, we can have a significant impact on a child's learning. We welcome and actively encourage parents to participate confidently in their child's education and care in numerous ways including listening to their child read at home, attending curriculum workshops to learn of expectations and their child's learning journey, completing WOW stars or using Evidence Me to share their child's personal acts of kindness/achievement at home.

Working with other services and organisations is integral to our practice in order to meet the needs of our children. At times, we may need to share information with other professionals to provide the best support possible.

We draw on our links with the community to enrich children's experiences by taking them on outings and inviting members of the community into our setting.

Transitions

Transitions are carefully planned for and time given to ensure continuity of learning. At any transition, we acknowledge the child's needs and establish effective partnerships with those involved with the child and other settings, including nurseries and childminders. Children attend introductory sessions to Reception to develop familiarity with the setting and practitioners. They receive a small booklet containing photos and complete an 'All about Me' sheet.

In the final term in Reception, the KS1 teacher will meet with the Early Years staff and discuss each child's development against the Early Learning Goals in order to support a smooth transition to Year 1. This discussion helps the KS1 teacher to plan an effective, responsive and appropriate curriculum that will meet the needs of all children.
